公司简介

Company profile

中国中铁拥有120多年的历史渊源。以1894年山海关机器厂的成立为标志，中国中铁成为中国民族工业的先行者和铁路建设的开拓者。1909年参与建成了京张铁路，开启了中国铁路建设事业的先河。1950年6月，在新中国第一条铁路成渝铁路的开工典礼上，邓小平、贺龙等授予中国中铁建设者“开路先锋”旗帜。此后，中国中铁勇做“开路先锋”，逢山开路、遇水架桥，累积参建的工程占中国铁路总里程的2/3，占中国电气化铁路总里程的90%，占高铁总里程的55%，占中国城市轨道交通总里程的3/5，建造跨江跨海大桥1万多座，建造长大隧道2万多公里，18次赴南极承担建设维护任务。

中国中铁于2007年分别在上海、香港两地上市。目前已发展成为集勘察设计、施工安装、房地产开发、工业制造、科研咨询、工程监理、资本经营、金融信托、资源开发和外经外贸于一体的多功能、特大型企业集团，全球最大的建筑工程承包商之一。公司总资产13,617.26亿元，净资产3,583.43亿元。

公司经营范围覆盖到基础设施建设的全产业链，工程项目遍布中国除台湾省以外的各省市自治区以及全球90多个国家和地区，科技水平在诸多领域达到世界先进水平。

CREC has over 120 years of historical origin. With the establishment of the Shanhaiguan Machinery Plant in 1894 as a milestone, CREC has since become the forerunner of national industry and the pioneer of railway construction in China. We participated in and completed construction of the Beijing-Zhangjiakou Railway in 1909, setting the precedent for China's railway construction. In June 1950, Deng Xiaoping and He Long conferred the construction workers of CREC the flag of "Trailblazer" at the commissioning ceremony of Chengdu-Chongqing Railway, the first railway in New China. Since then, to live up to that title, CREC has been committed to cutting a way through when confronted by mountains and building a bridge when blocked by a river. The projects it has participated in cumulatively account for 2/3 of the total mileage of Chinese railways, 90% of the total mileage of Chinese electrified railways, 55% of the total mileage of high-speed railways, and 3/5 of the total mileage of Chinese urban rail projects. We also built more than 10,000 river- and sea-crossing bridges, over 20,000 kilometers of tunnels, and made 18 trips to Antarctica for construction and maintenance tasks.

CREC went listing respectively in Shanghai and Hong Kong in 2007. Currently it has developed into an extremely large multi-functional enterprise group engaged in survey and design, construction and installation, real estate development, industrial manufacturing, scientific research and consulting, engineering supervision, capital management, financial trust, resource development and foreign economy and trade. It is one of the largest construction contractors in the world with total assets of RMB1,361.726 billion and net assets of RMB358.343 billion.

CREC's business scope covers the whole industrial chain of infrastructure construction, with projects spreading all over China's provinces and autonomous regions except for Taiwan and more than 90 countries and regions in the world. The technological level in many areas has reached the world's advanced level.
